PASS THE PASSPORT

STAMP BOOK

196 COUNTRIES · 15 MILESTONES

One sticker for every country in the world

HOW IT WORKS

Every country has its own sticker: its outline, filled with its flag.

When you've been, peel it off and stick it in that country's spot in your passport.
Write the date underneath.

Blank stamps are for the places that aren't countries: territories, islands, repeat visits.
Write the name in the middle.

Milestones are on the last page: your first trip, 10, 25, 50 and 100 countries, and a sticker for every continent you complete.
